THE farewell concert given by Miss Amy

Sherwin and Miss Minna Fischer, in the City Hall theatre last evening was better attended than the first. H. E. the Governor, and Major Vernon Chater and the officers of the Regiment, were present. The pretty and piquant prima donna's efforts were characterised by all the power and sweetness that have won her so much popularity throughout the Far East. Whether in the vocal valse" Lady moon," the French and German chansons, the "Glass" song from the Grande Duckess, or the trying "fewel song" Faust-but more especially in the last-Miss Sherwin evoked loud and prolonged applause, Miss Fischer's pathos and expression were displayed in several sweet ballads, best of all being Jock of Hazeldean," which she sang in response to one of the invariable encores which the selfish and disorderly portion of the audience insisted on. In our preceding notice we endeavored to convey, in a kindly way, a hint to the soldiers and sailors that their mode of expressing approval annoyed the rest of the audience, but, since a hint is thrown away, we beg to tell them, on behalf of the civilian concert-goers, that among their numbers are many who deserved nothing better than to be tumbled out neck-and-heels, and we hope that on another occasion provision will be made for so obliging these rowdies. Mr. Clutsam, on whose merits as an accompanist nothing remains to be said, was more felicitous in his selection of piano soles, and was much better appreciated for his brilliant execution, especially in the "Marche Hongroise." Mr. W. E. Crowe, who had kindly volunteered a couple of songs, was moderately successful. But he didn't choose nice sensible songs. The "Bedouin's Love Song" is pregnant with "rot," The feminine Bedouin is frequently opthalmic, generally dirty, and always ugly, and she hangs out in gipsy tents, so to beseech her, in stentorian tones and with the whites of the eyes shewing, to open her window and paralyse her lover with her fatal beauty, is slightly inaccurate. It was fairly well sung however. We told Mr. Crowe, too, some time ago, that " Oh oh! Hear the wild winds blow" wasn't a nice song and we beg to repeat it. "When Britain really ruled the waves "was worth forty of it. We have now only to mention the chorus by the gentlemen amateurs in the song from the Grande Duchesse. If they had only kept together, sung in time, and not gone through the hollow mockery of clinking empty glasses so frequently, they would have been a success. The music was good .-Miss Sherwin is now going down to Singapore

verandah was then down. Mr. S. G. Bird said :- I left the firm of Bird and Palmer in April last, after practising here for ten years. I took over the superintendence of the new Hotel wing when Mr. Palmer went home, being assisted by Mr. Turner. In June, yard? 1888, I inspected Melchers' buildings and made a report. I found the building very dilapidated; a serious settlement in the chimney breast, and cracks in all parts. I plumbed the walls, and found them fairly good. The south wall had two slight bulges. The west wall was worse bulged. I put in some temporary shores between the south wall and the new building. That was quite sufficient. The trench on that side was dug in sections, and each was timbered and strutted. I never heard of any dynamite being used in the work. In March last there were no signs that the foundations were subsiding, and I attributed the alarm of the tenants to the letter written to them by Mr. McCullock, on behalf of the Hotel Company. The trenches had water in them at high water, but this would not hurt the foundations of Melchers' building. I do not think there was any occasion for the tenants to leave, except those on the southern side. The place is dilapidated now, but I think it might be made partially habitable. . HONGKONG JEUNESSE DOREE AT THE POLICE COURT.

BRITISH GALLANTRY FINED FIVE DOLLARS.

At the Police Court yesterday, before Mr. H. F. Wodehouse, an architect and civil engineer in the office of Messrs. Danby and Leigh, named Arthur Henry Ough, was charged with assaulting Mak Ann, a ricksha coolle employed by Mr.] Francis Webber. 'I here was, in connection with the same case, a cross-summons, only taken out short time before the Court opened, by the defendant - Ough against . the 'ricksha coolie for alleged furious driving under some Ordinance of the year 1845 there were no rickshas in those far distant days, but Hongkong solicitors are not supposed to stand at trifles-, also a summons for assault by the aforesaid Ough against Mr. R. The particulars of the case were briefly explained and the following evidence was taken :-

Mak Ano-I am a ricksha coolie in the about 11 p.m., I was with my 'ricksha at the side of the City Hall theatre. People were coming out of the theatre. My master came out and got into the 'ricksha. I did not see defendant walking in front of the 'ricksha, nor did I go some distance and run against him. I had not moved the 'ricksha. I see a mark on these trousers (a pair of white pants with a slight trace of sand behind, said to be defendant's, were shown to witness), but the mark was not made by the wheel of my 'ricksha.

Robert Fraser-Smith-I am a journalist and editor and proprietor of the Hongkong Telegraph. On the night of the 23rd July, shortly after 11 o'clock. I was coming out of the City Hall Theatre in company with Mr. Webber. We got into Mr. Webber's 'ricksha in order to drive to the Hongkong Hotel. There was a crowd of chairs and rickshas there. had only got in to the 'ricksha, and the coolie had heard one of the two say "go slow," and the lifted the shafts and just commenced to move when three men swaggered past. As soon as defendant was struck by the 'ricksha he struck out at the coolie and hit him somewhere on the head. The blow appeared to me to be given in self-desence. It was in selfdefence, and I would have done the same. M Ough then turned round to see who were the occupants of the 'ricksha. He told them they might keep their coolies from going so fast in a crowd. There was some talking between Mr. Smith and Mr. Ough, and we three walked on. When we got to the Hongkong and Shanghai Bank the ricksha came up behind us, and the occupants got out. Mr. Smith then came up to Mr. Ough and asked him for his name, and Mr. Ough refused to give it. Mr. Drury interfered and said not to bother with those fellows; we went on. The ricksha was well under way when it struck Mr. Ough. was going far too fast. The defendant struck the coolie with his left hand. It was not a blow from the shoulder, but a kind of swinging blow. The 'ricksha was coming from the enclosure and was going on to Queen's Road. Mr. Smith came to me and asked why I had called him " a fellow." .I replied that I had not used the term and he apologised, humbly of course. He then asked Mr. Drury and Mr. Drury gave him an explanation,

I had got as far I think as about three quarters of the distance between the City Hall steps and the gutter of Queen's Road, when suddenly I was struck in the back and down the whole of my thigh by the off wheel of a 'ricksha. It was a severe blow and I had to step forward pretty sharply to keep myself from falling. At the same time I threw up my left arm and hit the coolie, I should think about the back of his head. I could not hit from the shoulder, because I broke my arm some time ago. Mr. Webber then asked me in a very quiet way for my name and address and I gave it to him. 'I hit the coolie in self-defence : I had no intention to hurt him. None of us used any foul language and we did not behave in a rowdy manner. I did say-"where the devil are you coming to?" but don't consider that is abusive language. was very violent.

By Mr. Webber-When you asked me for my name and address I did not mention that the coolie had come against me with the ricksha. Mr. Drury, after considerable hesitation, stated | in a gentlemanly manner throughout, ' I refused to give my name to Mr. Fraser-Smith, but said would give it to a Sikh. Mr. Drury was there, but I don't know if he was close enough to hear the conversation; there was a good deal of noise. I did eventually give you my name.

John Francis Webber, 'called by the Court, stated that he examined the coolie's head on his return home, about midnight. There was a bump on the back of his head, and he gave the man a piece of flannel and told him to bathe it in cold water. He saw the blow struck and would positively swear that it was delivered with the right hand, from the shoulder. Mr. Reece quoted some Ordinance of 1845 to

show that if an assault had been committed it: was justifiable, as the ricksha was going at a reckless pace, and Mr. Ough only struck out in selfdefence. The coolie was contravening the law by driving his vehicle recklessly and wantonly, and he would ask that the summons be dismissed.

The cost of repairs to the Honam's bottom has been much greater than was anticipated at the date of the last report, and, it is expected that a further extensive outlay upon this vessel will be necessary when next she is laid up. Upon the recommendation of Surveyors it is proposed in future to dock the Company's steel vessels every six months instead of annually as heretofore. The electric light installation has been fitted to the Powan and is working satisfactorily. The repairs to the Canton Wharf mentioned in the last report have been completed. A steel twin-screw steamer for the Macao trade, to be named the Heung Shan, has been contracted for with Messrs. PROSPECTUS. THIS Company is formed with the object of

purchasing building sites in the Peak District of Hongkong and erecting thereon suitable houses for Residential purposes. With this object in view, Contracts have been entered into with the owners of Rural Building

Lots. Nos. 58, 59 and 61, and Farm 'Lots Nos. 60 and 61, for their purchase on behalf of the The lots are all situated within a few minutes' walk of the Peak Terminus of the Tramway and

from their unequalled position and convenience of access they form some of the most desirable sites at the Peak Rural Building Lots 38 and 59 contain 62,815 square feet already levelled, and having three houses now in course of erection thereon; two more can be built on the remaining prepared

sites, the estimated cost of the 5" houses is Rur d Building Lot 61- contains 32,825 square feet, already levelled, and prepared for building five houses with a Tennis Court, the estimated cost of the 5 houses is \$36,000, the foundations

of two houses being already built. Farm Lots 60 and 61 contain 87,250 square feet, much of it levelled for building. This property includes the Residence known as the Haystack and which is now let at \$158 per month. There are sites on these lots for 9 more houses with ample ground thereto at an estimated cost of \$60,000.

Provisional Contracts have been entered into for letting the two houses, now being erected for a period of two years at \$120 per month. The Company will thus hold twenty houses

month each, and the total aimunt income from those estates should therefore be \$29,256, or over 12 per cent on the capital to be expended. The land is purchased, after deducting the present value of the houses now on Farm Lots 60 and 61, at an average price of a little over 50

Plans of the proposed houses have been prepared for the Company, at whose offices they may be seen and every information obtained.

The purchase money for the land is to be paid in cash, \$61,500, and 3 432 Shares with \$15 paid up, the vendors thus becoming liable to meet calls as ordinary Shareholders. The estimated cost of erecting the houses and completing the same fit for occupation according

to the present plans is \$135,500 or a fotal of \$248,480, including all staff and working Taking into consideration the fact that the

Company's property is so near to the Tramway. has such magnificent and unbroken views of the Sea and Harbour, and the great and increasing demand for moderate rented houses at the Peak it is confidently believed that this property offers one of the safest and most profitable investments in the Colony,

The Company has so large a margin for profits that to pay 8 per cent, the rents could be reduced from \$120 to \$80 per month per house, so that while supplying a high class and well appointed Residence in the best locality at the Peak, the Company can compete with the smallest and cheapest houses in Victoria of the same class.
